This is a short letter to inform you of our change of address. Our Dominican relative in New York, who had graciously taken care of our mail for the past six years, is no longer able to do so. His wife passed away last year. His mother-in-law was living with them for several years and he was taking care of her. Just a month ago she also passed away, and now our relative is required to move out of their apartment. He is the one who sent our mail to us in the Dominican Republic, along with any packages or other items.

Now, a childhood friend of mine, Marcia Cobb Mell, and her husband, have generously offered to take on the responsibility of helping with sending our mail down to us from time to time, via Federal Express. Therefore, we have taken out a P.O. Box in Corpus Christi, Texas, where they live and where I grew up. This does NOT mean that Luis and I will not be relating to New York anymore. We will continue to keep our same doctors and friends in New York that we have known for years while living there. It DOES mean, however, that Luis and I will probably be able to visit our wonderful friends and relatives in Texas more frequently, rather than just every five years, which has been the case in the past. 😊❤️😊

Our new address is: **POST OFFICE BOX 60018
CORPUS CHRISTI, TEXAS 78466-0018**

I, Julie, also have a new cell phone: **646-875-7467**

Thank you, Walter and Marcia, for offering to be so generous with your time in helping us with a very important need. Luis and I also thank each of you for the many ways your have been there for us and for your generosity in many ways, not just with your financial contributions. We are very grateful.

Love, *Luis & Julie*
